

Directorate of Project Headquarters

Newsletter N°10

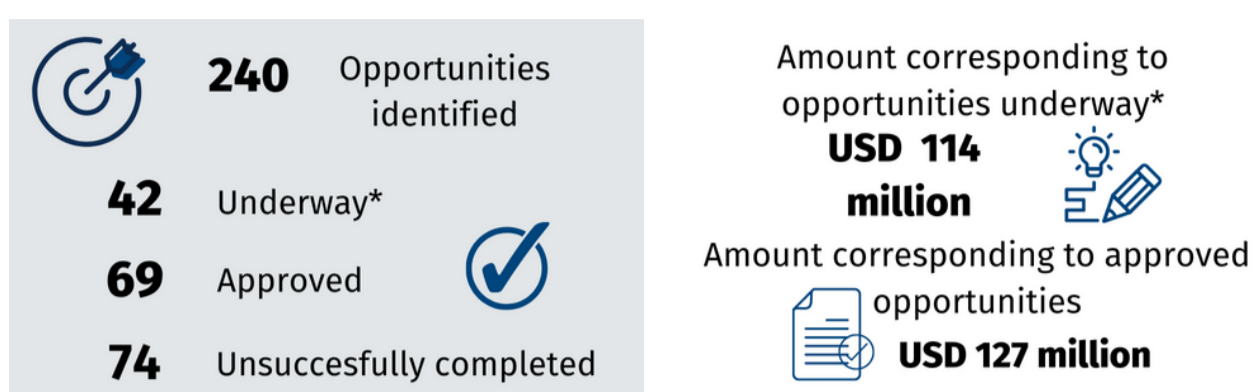

Collaborative work among IICA's Delegations, Technical Cooperation Programs and specialized units has allowed for achieving progress in the identification of new opportunities, partners and donors to mobilize new external resources to make our technical cooperation model aimed at driving the development of our member countries viable.

DP's Strategy for Mobilizing External Resources

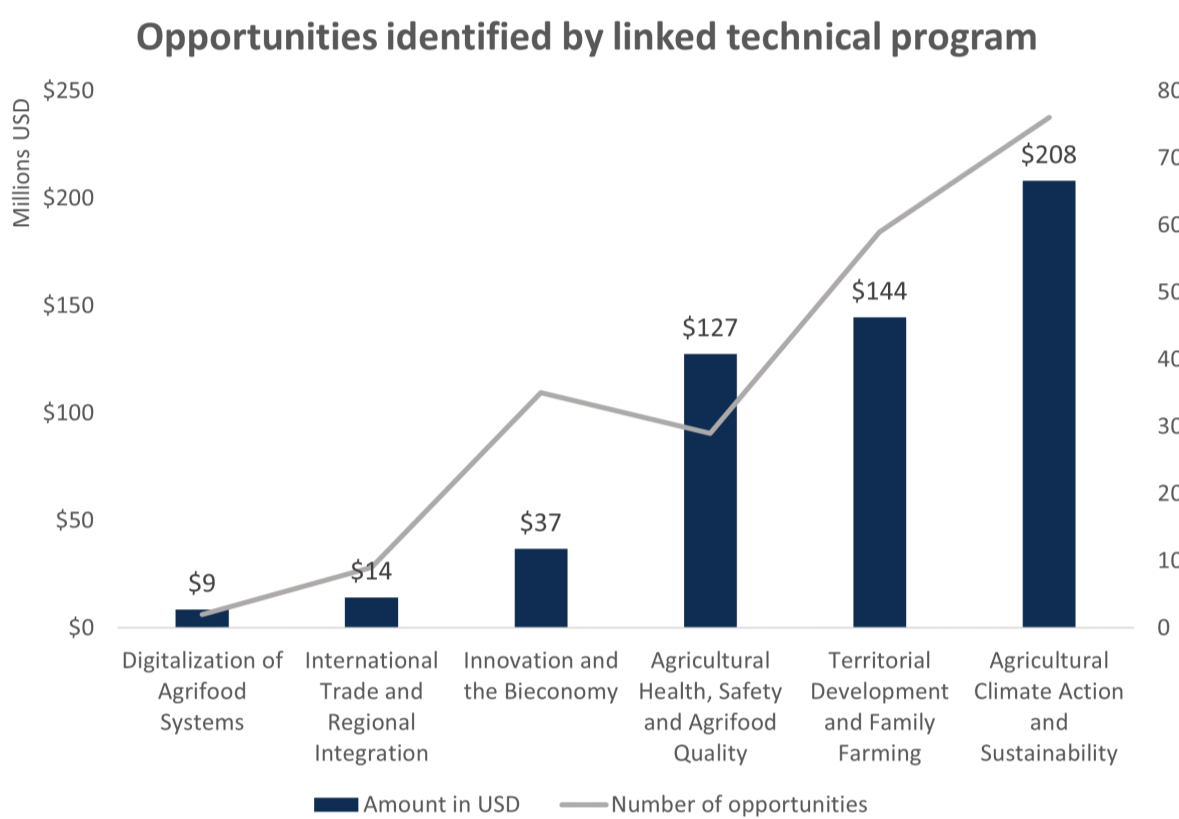

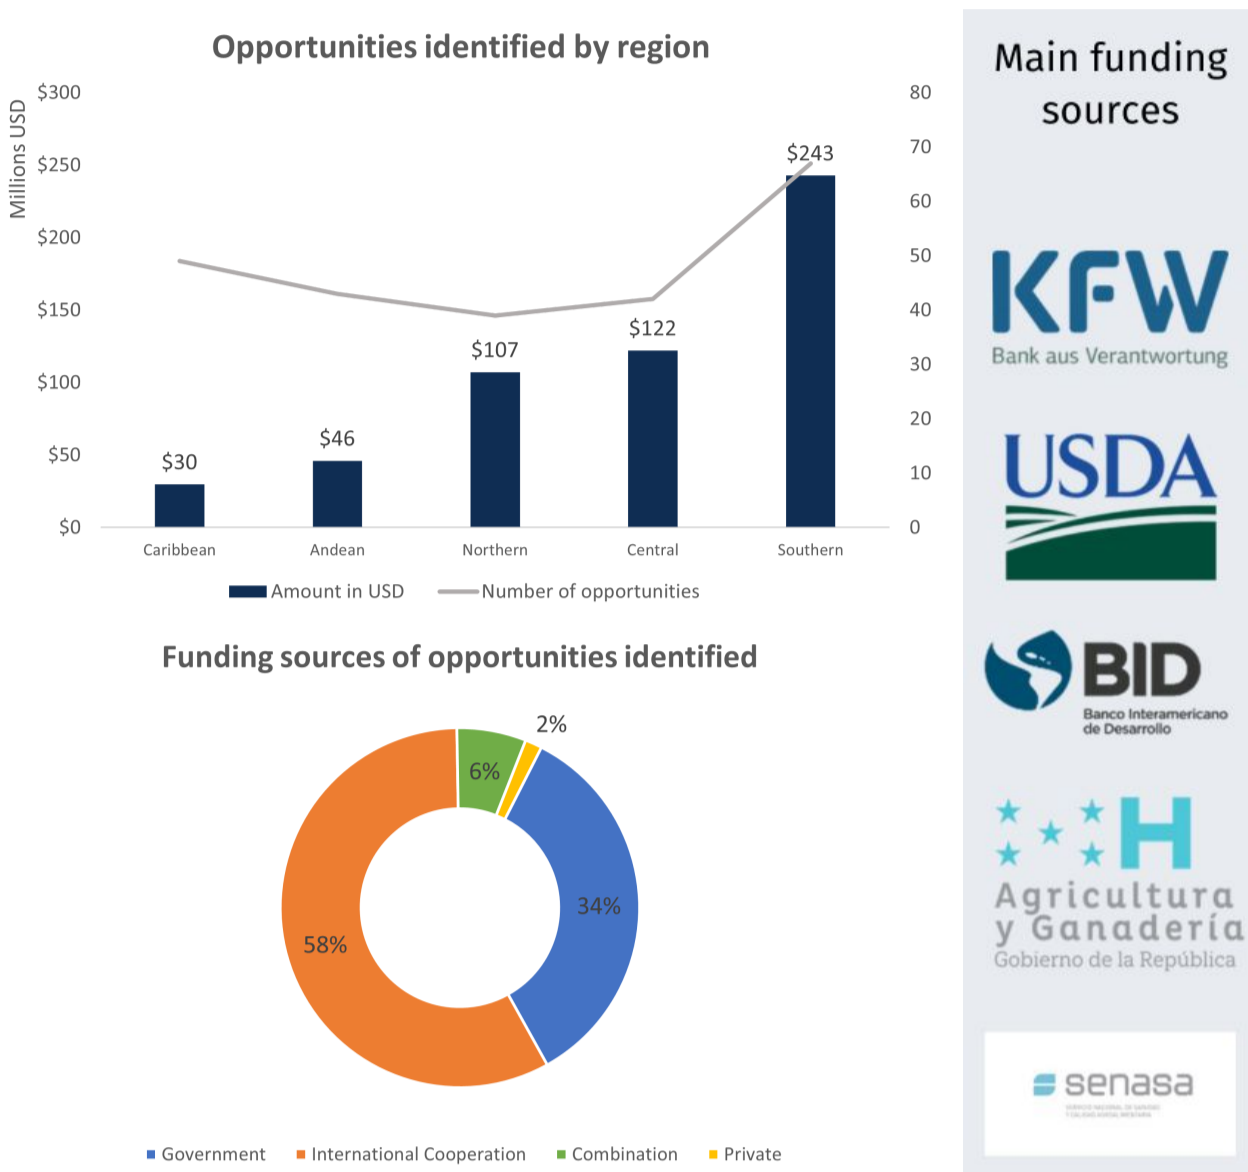

Line of action 1

Identification of opportunities in the priority areas of IICA member countries

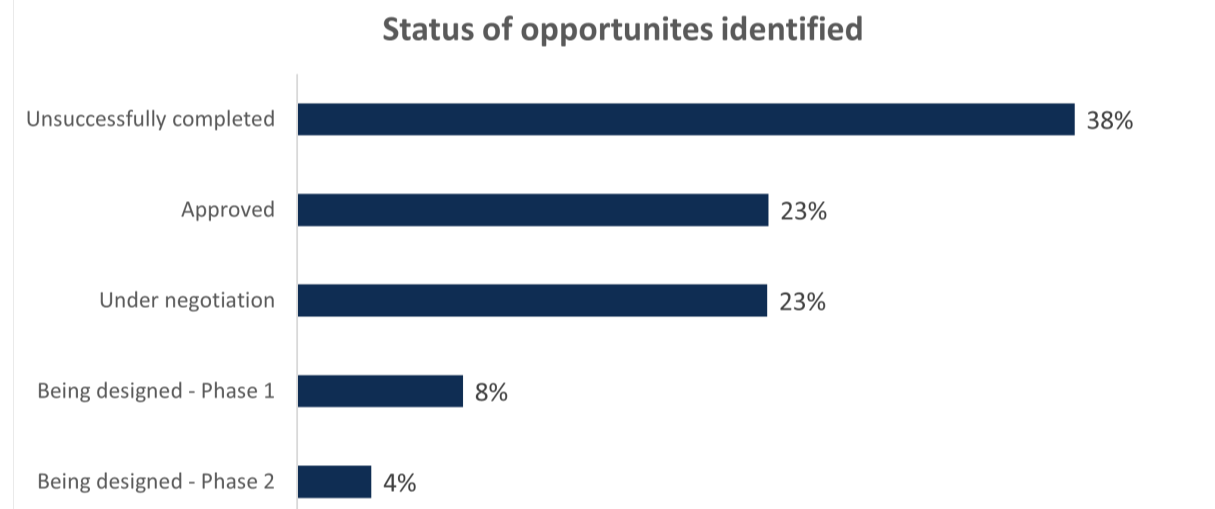

Data corresponding to the period July - December 2022

* This amount includes only the opportunities that, according to our Delegations, have a medium to high probability of approval.

Data corresponding to the period July - December 2022

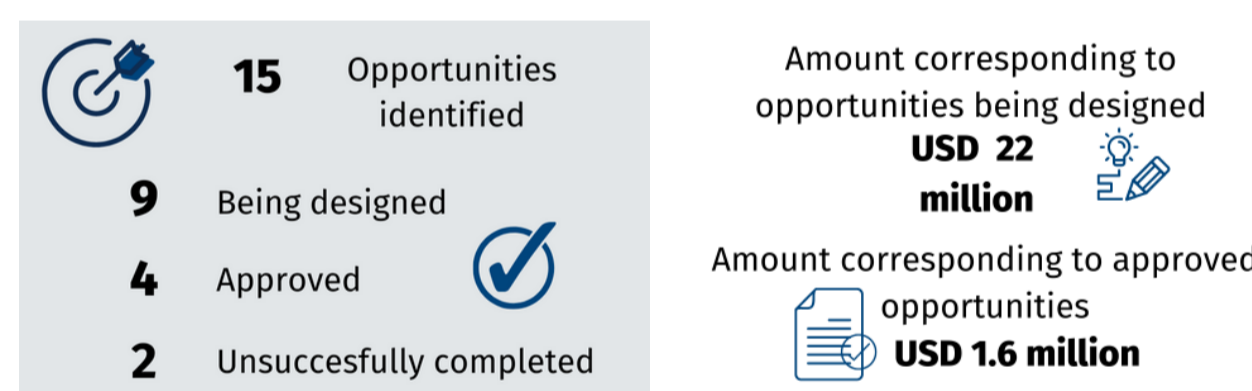

DP's Strategy for Mobilizing External Resources

Line of action 2

Development of new innovative and competitive projects by our Delegations.

Data corresponding to the period July 2022 - March 2023

New partners to design and submit projects

Current strategic topics for donors in project design

DP's Strategy for Mobilizing External Resources

Line of action 3

Development of new methodologies for strategic projects

Induction for the Representatives in Argentina and Uruguay
In October 2022, we received a visit from the new IICA representatives in Argentina and Uruguay, Fernando Camargo and Rodrigo Saldrias, respectively, as part of their induction process. We had the opportunity to share with them the DP's Strategy for Mobilizing External Resources as well as our progress in developing new technical cooperation partnerships and projects..

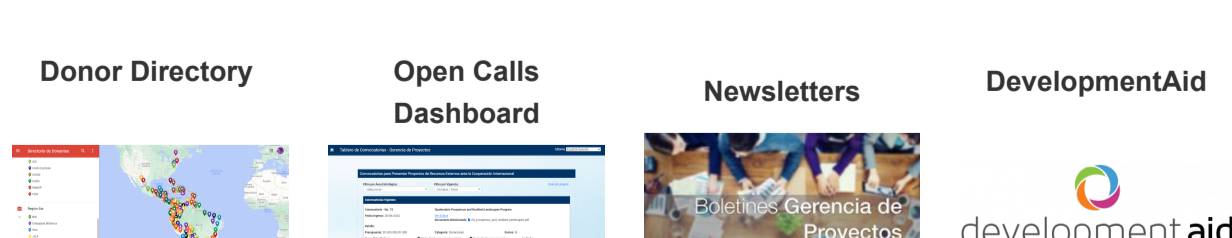

Meeting with partner OCA Global
In November 2022, IICA and OCA Global met to explore opportunities for joint work within the framework of international calls for proposals and bids related to the technical work areas of both institutions. Some of IICA's areas of technical cooperation and OCA Global's portfolio of short-term opportunities were presented.

Closing workshop for the INNOVA-AF Project
At the closing event for the INNOVA-AF project in October 2022, DP specialists delivered a workshop during which working groups explored opportunities to scale up family farming projects.
